OUR attention is respectfully called to an important point not generally known, that a laxative should have a tonic element to successfully meet constipation.

Mr. John B. Capers, of 610 Pecan St., Fort Worth, Texas, had a sig-nificant experience in this particular. He was afflicted with a severe case of constipation and bowel trouble. He spent a good deal of money in trying to find a remedy. ment, Peruna very quickly relieved him of his bad

symptoms. This happened a number of years ago. Since then, Mr. Capers states that he has had similar attacks of trouble, the prominent symptom of which is constipation, and has always found prompt and efficient relief from Peruna. He says: "Up to the time I started using your Peruna I could drink castor oil

no good. As for salts, they were of no use. Physics of all kinds and classes were used, but we had to call on the fountain syringe for help." Peruna was able to cor-rect this condition completely in Mr. Capers' case, and there is every rea-son to believe that it was the tonic qualities of Peruna, added to the laxa-tive qualities, that procured this very desirable result.

Indictments Will Follow.

If the witnesses persist in their attitude, indictments in the District Court here will follow immediately. The section of the Federal statute governing the new move of the commission is as follows:

"Any person who shall neglect or decline to attend and testify or to answer any lawful inquiry or to produce books, papers, tariffs, contracts, agreements and documents, if in his power to do so, in obedience to the subpoens or lawful requirements of the commission, shall be guilty of an offense, and upon conviction thereof by a court of the contracts agreements in this power to do so, in obedience to the subpoens or lawful requirements of the commission, shall be guilty of an offense, and upon conviction thereof by a court of the contracts agreements in this jurisdiction, shall be punished by a fine of not less than \$100 or more than \$5,900, or by imprisonment of not more than \$5,900, or by imprisonment is hed by a fine of not less than \$100 or more than \$100 or more than \$5,900, or by imprisonment of not more than \$100 or more than \$1

The commission knows all about a series of coupon clipping contests that took place when the strong box was opened to pay interest on dubious promissory notes of the Billard Company.

In these clipping expeditions, the services of many clerks were often required. The names of these clerks are known, and several of them may be asked to take the stand at the next hearing and testify against their employers.
